Summary

Software Engineer specialising in Java, Spring Boot, MERN Stack, and REST API development. Experienced in building scalable backend systems, JWT Authentication, RBAC, database optimisation, and AI-powered applications. Strong foundation in DSA, OOP, DBMS, Operating Systems, and SDLC.

Work Experience

Python Programmer Intern, CodSoft Aug 2024 – Sep 2024

- Built a data visualization tool using **Python, Tkinter, and Pandas**.
- Processed datasets and generated dynamic graphs for **real-time** insights.
- Integrated **data processing** functionalities to improve application efficiency and usability.

Java Programmer Intern, CodTech IT Solutions June 2024 – July 2024

- Developed and executed a **Student Grade Tracker** application in Java, improving grade management efficiency.
- Applied **OOP** principles and **data structures** to build modular and scalable architecture.
- Streamlined grade calculation **workflows**, **reducing manual effort** and improving data accuracy.

Projects

MediSmart – AI Integrated Healthcare System  Live Feb 2026 – June 2026

- Enhanced **15+ RESTful APIs** using Spring Boot, React.js, and MongoDB for patients, doctors and booking.
- Implemented **JWT Authentication, RBAC**, and optimised database operations for secure and efficient access.
- Deployed the application on **Render** and **Vercel**, delivering a scalable and responsive cloud-based solution.

Online Library Management System Sep 2025 – Nov 2025

- Constructed a **web-based Library Management System** using Java, Spring Boot, JDBC, and MySQL.
- Implemented **authentication, search, issue/return workflows, and real-time book availability**.
- Applied **OOP principles** and optimised database operations to improve system performance and scalability.

Online Job Portal Apr 2025 – Jul 2025

- Built a full-stack Job Portal using **React.js, Node.js, Express.js, and MongoDB** for job postings and applications.
- Expanded secure **REST APIs** and recruiter dashboards for managing jobs, applicants, and company profiles.
- Created workflows, **search and filtering** based on keywords, location, and experience.

Education

Noida Institute of Engineering and Technology Nov 2022 – May 2026
B.Tech in Information Technology Percentage: 76.9

Skills

Programming: Java, JavaScript, Python, SQL

Backend: Spring Boot, Spring MVC, REST APIs, JDBC, Node.js, Express.js

Frontend: React.js, HTML5, CSS3, JavaScript

Databases: MySQL, MongoDB

Cloud: AWS EC2, AWS S3, AWS IAM (Learning)

Core CS: DSA, OOP, DBMS, Operating Systems, Computer Networks, SDLC

Tools: Git, GitHub, Postman, IntelliJ IDEA, VS Code

Achievements

- Solved 500+ DSA problems across LeetCode and GeeksforGeeks.
- Built and deployed multiple full-stack applications using Spring Boot and MERN Stack.

Certifications

Introduction to AI ML – **Infosys** Mar 2025 – Apr 2025

Object Oriented Programming in Java – **Coursera** Nov 2023 – Dec 2023

Java Programming: Arrays, Lists and Structured Data – **Coursera** Nov 2023 – Dec 2023
